## DETAILED ACTION

### *Specification*

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

It is suggested that the term --WITH FLUORINATED ANIONIC SURFACTANTS—be added to the end of the current title.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-21 are rejected under 35 U.S.C. 102(a) as being anticipated by Van Cleeff (WO 99/55746) and under 35 U.S.C. 102(b) as being anticipated by Kahn (USPN 4,524,197).

Each of Van Cleeff (page 1, lines 5-18 and page 9, lines 7-10) and Kahn (col. 2, lines 26-47, col. 3, lines 47-61, col. 4, lines 25-34, col. 6, lines 2-12 and Examples 1 and 2) teach the presently claimed emulsion polymerization of fluorinated monomers with surfactant represented by the formula in the present claim 1, wherein the pH, pressure, temperature, and reaction conditions are the same as claimed, and the product thereof.

Art Unit: 1713

Thus, the requirements for rejection under 35 U.S.C. 102(a) are met.
